## APPOINTMENT BOOKING PAGE

The screenshot shows a web browser window with the URL `localhost:3000`. The page has a purple header with a logo and the text "Doctor Finder" on the left, and a "Book an Appointment" title on the right. A "LOGOUT" button is in the top right corner. The main content area is divided into two sections: "DOCTORS" on the left and "APPOINTMENT" on the right. The "APPOINTMENT" section contains a form with the following fields: "DoctorName\*" with the value "Kennan Hess", "Date picker inline" with the value "06/27/2022", "Time Slot" with a dropdown menu showing "11AM-12AM", "Medical History" with the value "Covid-19", and "Symptoms" with the value "Cold, Fever, Chills". A "BOOK APPOINTMENT" button is at the bottom of the form. The browser's taskbar at the bottom shows various application icons and system information like "28°C" and "27-06-2022".

## APPOINTMENT HISTORY PAGE

The screenshot shows the same web browser window, but the page is now displaying the "APPOINTMENT HISTORY" section. The "DOCTORS" section is empty. The "APPOINTMENT" section contains a list of two appointment entries, each with a "RATE APPOINTMENT" button. The first entry is for "Dr. Meghan jordan" with a date of "2021-05-26", symptoms of "TEST", and a prior medical history of "NA". The second entry is for "Dr. Kennan Hess" with a date of "2022-6-27", symptoms of "Cold, Fever, Chills", and a prior medical history of "Covid-19". The browser's taskbar at the bottom remains the same.

## SUBMIT RATINGS PAGE
